Martha Robi Ng'era

I Martha Robi Ng'era born in the family of seven children 4 boys and 3 girls, I rank number five but a first born girl child. As a young girl I had a passion of sharing my achievements in life with the poor especially the girl-child in my community, who has been given the last option in education i.e. a voice of the voiceless. Although my parents were depending in peasant farming to provide for all we needed as a family I had to put more effort in my studies until I made it to secondary school level 1997. To realize my dreams, in 2003- I worked in St Teresa's girls' secondary school Kehancha Homa-bay diocese run by SFIC, as a matron and as a volunteer social service in guiding the girl child on basic education.

2005/6 – As a catholic nun, I worked among the Maasai community in pre-school and primary 1&2 as an untrained teacher and giving other social services like guiding and counseling to the young school boys and girls and home visit.

2007- I worked among the Luo community in St Francis community of learners and day care as a pre-school untrained teacher as well as offering home based care for the OVCs of our school SFIC sisters.

After enrolling as a student in Tangaza College 2008 my desire was enriched with the studies from Institute of Social Ministry in Mission ISMM Tangaza College **2009 to 2011** and in my attachment I decided to work with the women in Makina Kibera slum Nairobi as a volunteer basically on women empowerment in income generating activities as well as kitchen garden.

Therefore, on 28 may, 2011 I graduated with an aggregate of B without a diploma letter due to the balance that I owe Tangaza College as stated by the attached letter.

Moreover, after my studies it is my great desire and passion to work with and for the poor brothers and sisters in our contemporary society together making the next world possible. For this reason I am passionately looking for financial support from people of good will to realize my dream fully.
